

U.S. Serial No. 09/410,367
Attorney Docket No. 01413.0009-00000

REMARKS

Claims 68-82 are pending in this application; claims 68 and 74 are allowed; claims 69-73 and 76 stand rejected; claims 75 and 77-82 are objected to by the Examiner.

By this Amendment, Applicants have amended the claims to correct typographical errors and place the claims in condition for allowance. Additionally, Applicants have amended the Detailed Description portion of the specification to include the applicable portions of U.S. patent applications previously incorporated by reference as indicated in Applicants' previous reply, filed on January 27, 2005.

Claims 75 and 76 have been amended to correct dependencies as required by the Examiner. In view of this amendment, the objections to claims 75 and 76 and rejection of claim 75 under 35 U.S.C § 112 are moot.

Claims 75, 78, and 81 have been amended to replace the phrase "containing software for performing" with the wording suggested by the Examiner, thus rendering the objection moot.

No new matter has been introduced by any of the above amendments.

Claims 69-73 have been rejected under the doctrine of obviousness type double patenting over U.S. application Serial No. 09/409,209, now issued as U.S. Patent No. 6,898,530. Without acquiescing to the Examiner's rejection, Applicants submit a Terminal Disclaimer which overcomes the double patenting rejection.

In conclusion, Applicants believe that the application is in condition for allowance. The Examiner is invited to call the undersigned with any questions or comments.
